Batmobile spotted at Downtown Mansfield Cruise-in

2016-08-27 23:09:52 by Event_Editor

The Batmobile was spotted at the Downtown Mansfield Cruise In.

Throughout the day thousands of people ventured out into the 85 degree heat take in the views at the Downtown Mansfield Cruise-in. With local food vendors stocking the food court and classic cars showing off their chrome on a sunny day the event could be considered a huge success.

While visiting we found that hundreds of cars had lined the streets and in the heart of the mix was the original Bat Mobile fashioned after the model that appeared in the television show starring Adam west. Although we could not find the caped crusader we did hear rumors that he had Alfred's assistant drop it off.
