IBERIA, OHIO: Announcing our current Featured Facebook Page: Jayme Sue's Cakes!

Like all home town proud businesses - Jayme Sue's Cakes grew from an individual pursuing the passion of doing what they love they to do!

Located in Iberia, Ohio, Jayme Criss, owner/operator, started making cakes about 8 years ago as a loving mother making cakes for her kids. Occasionally a family member would ask her to make them a cake and for several years that is pretty much how it went.

Then about 2 years ago her friends started asking her to make cakes for their events! So last October, with the encouragement of friends and family, Jayme Sue was able to get permission from the Ohio Department of Agriculture to make made to order cakes from her home.

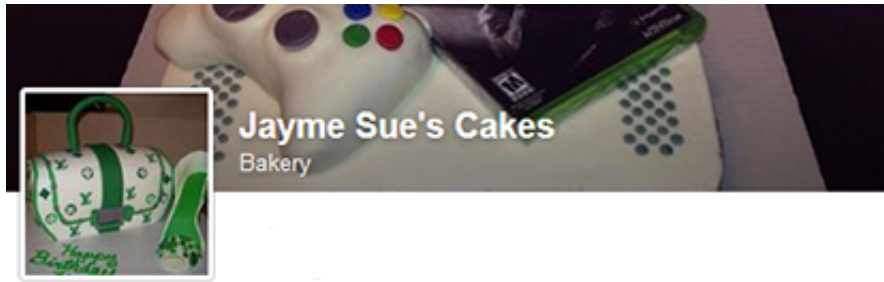

Running as a one lady band - Jayme Sue makes beautiful themed cakes that have received positive reviews from pretty much everyone who has taken the time to talk about them. She has no employees but occasionally her daughter will pitch in and she has a very good friend who also helps out with some of the prep work when she needs it.

Like many natural entrepreneurs in their field - Jayme is self taught - and is fast becoming the talk of the town. Her own stated mission is "to provide everyone with not just a cake, but a memory that will bring a smile to your face and warm the heart!
