Network Maintenance

2013-11-23 02:35:39 by Admin

We will be performing network maintenance during our maintenance window beginning Saturday, November 23rd at 9:00PM CST through 3:00AM CST Sunday morning. During this time, you may experience intermittent connectivity to your server and/or services.

We are working diligently to complete a network migration and redundancy upgrade. We apologize for any inconveniences this may cause.

If you have any questions or concerns, please comment below.
