2018-06-02 09:32:13 by MelissaH0243

You have 60 minutes to break the Bishop's Code, find the precious jewels, escape, and save the Bishop!

The Scenario:

Bishop Brown has been kidnapped. The kidnappers are aware that Ella, the Bishop's wife, has many precious jewels. The Bishop, anticipating trouble, has hidden the jewels and developed a code to protect the jewels from being stolen. He told Clara Manzer, his secretary, if anything happened to him, she should "break the code" and save the jewels. She was unable to break the code. Under duress, the Bishop told the kidnappers where the jewels were hidden and they are on their way to get them. The kidnappers decided to take a tour of Brownella Cottage and attempt the heist while pretending to be part of a large tour group. Your group decided to take a tour of Brownella Cottage that very same day. The secretary selected your group to help "break the Bishop's code" and locked you in the room where the Bishop hid the jewels. You have 60 minutes before the kidnappers arrive to take the next tour. Your job is to "break the Bishop's code", find the jewels, escape the room, and call the authorities. Should you be able to complete your task, the Bishop will be saved!
